

# e-Jelly will help you take medicine in a variety of situations!

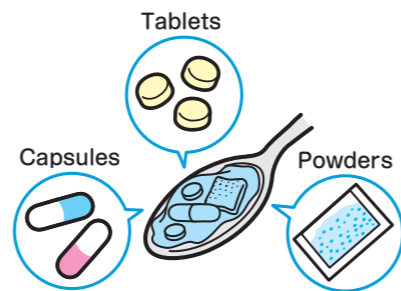

●The jelly coats your medicine so there is no sensation of having medicine in your mouth. It makes taking medicine easy.

●You can knead the jelly to whichever softness you desire.

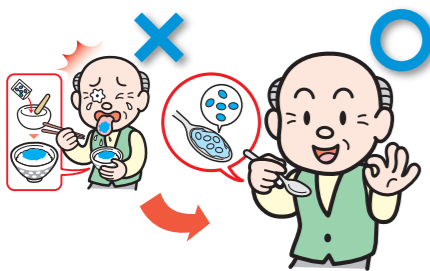

●Can be used for everything from capsules and tablets to powders.

●No need to crush medicine and mix with food. Use e-Jelly to quickly take medicine.

※Crushing medicine can reduce its effectiveness!

●e-Jelly has 1/10 the water when compared to drinking water with medication. Great for anyone on restricted water intake.

●It's small so putting it in your bag is easy. And you don't need to carry extra water. When away from home taking medicine is a breeze.

●With e-Jelly you can take medicine without water. If you don't have immediate access to water, it's no problem.

※During emergencies e-Jelly has been used as a medicine support item.

●Expiration date is 3 years (for small packets) and it's compact. Perfect for a disaster supplies kit!

※Expiration date for the majority of other medicine support jellies is 1 year or less.

Doesn't Separate Prevents Choking

# Easy to swallow jelly for taking medication

Assisting jelly for taking medication

Knead then Squeeze!

# eJelly

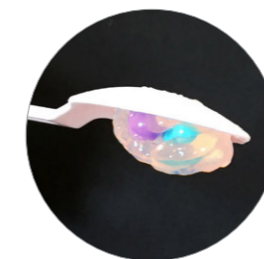

Pills covered with jelly are carried to stomach smoothly and completely.

Doesn't Separate Prevents Choking

- Recommended for anyone who has difficulty taking medicine.
- Individually Sealed Packets.
- Doesn't need water.

Doesn't separate. Stays together even when spoon is turned upside-down.

A spoonful of pills covered with jelly is easy to swallow.

Orange flavor is great for kids!

Low-calorie, Sugarless, No preservatives, No food coloring

e-Jelly Orange

e-Jelly Grape

# The most important property of medicine support jelly is that it coats the medicine and separation doesn't occur.

Other Jellies Separate

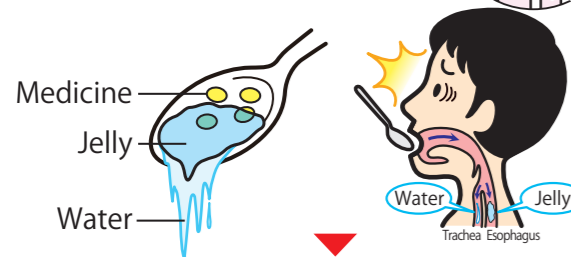

e-Jelly Doesn't Separate

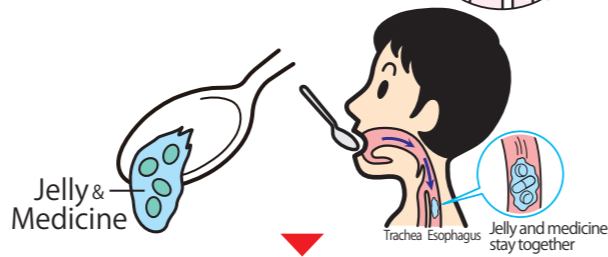

Water, jelly, and medicine separating during swallowing can cause choking and aspiration pneumonia.

Jelly coats medicine and doesn't separate when swallowed; everything travels to the stomach.

Can cause choking and aspiration pneumonia!

Smooth travel to the stomach!

## e-jelly How To Use ※Please knead well before use

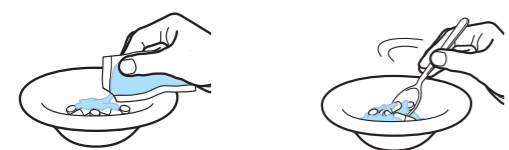

### ■If using a small bowl.

- Put medicine (pills, capsules, supplements, etc.) into a small bowl or cup.
- Knead jelly well and then tear open corner.

※Shallow one is best.

- Add jelly on top of medicine.
- Mix using a spoon and then swallow.

### ■If using a spoon.

- Knead well before opening.
- Tear open corner as shown below.

- Add half of jelly packet to spoon. Add medicine. Cover medicine using remaining jelly.
- Swallow.
